

**In Memory**

**ABIGAIL ANN**

**July 29, 2000 to March 19, 2012**

**On March 19<sup>th</sup> 2012 Tom & I said a very sad goodbye to our sweet girl. This was taken in Sept. of 2011 before she got sick and still looks healthy, which is how we want to remember our Abigail. We will remember her sitting on the arm of Tom's recliner to see outside or sitting in the window seat of the porch to see out and watch traffic and the squirrels in the yard. Abigail was our first puppy, we have always taken in or adopted adult Boston Terriers. As a puppy she loved to chase leaves in the yard; which she did even as an adult dog. Abigail was a very loving dog. She was quiet and rarely barked except when someone was at the door or when she thought it was time to eat (or you were too slow getting her food). These are just a few of our memories and there are so many more it would take a lifetime to write them down. Our Abigail will be missed in our home but not in our hearts where her memory will live. Tom & I miss our Little Girl that was our pet name for Abigail. Rocky (Abigail's adopted little brother) misses her too.**
